

The DataGame partners gathered in Athens on 15–16 October 2025 for the project's final Transnational Partner Meeting, hosted by ALLI at the Athens Lifelong Learning Hub. This gathering marked the culmination of two years of collaboration, creativity, and commitment to promoting data privacy awareness through playful and innovative learning experiences.

## FINAL TPM IN ATHENS

Over two days, the consortium reflected on the progress made and finalised the project's main outputs. The meeting also included a comprehensive review of management and financial aspects by the Berater and a final quality assurance session coordinated by I&F.

# DATA GAME

## INTERNATIONAL CONFERENCE

Following the TPM, the International Conference welcomed adult educators, NGOs, and members of the public who joined to explore the project's results and discuss the importance of data privacy in education. The event featured a series of engaging presentations, a Menti quiz on data privacy habits, and an inspiring talk on "Data Privacy & Safety in Education." It concluded with an open exchange of ideas and reflections, celebrating the collective effort that brought DataGame to life and the shared vision of making data literacy both accessible and meaningful.

Play.

Learn

Protect.

# DATAGAME VIDEO LAUNCH

To close the project, the partners created a short video capturing the essence of DataGame, a journey that combined innovation, collaboration, and creativity to make data privacy more engaging and accessible. The video features reflections from all partner organisations, showcasing the tools, ideas, and enthusiasm that shaped the project from start to finish.

This final piece is not only a summary of what has been achieved but also a celebration of the shared learning and partnership that made it possible. Through the voices of those behind the project, the DataGame video reminds us that understanding data privacy can be both meaningful and fun.
